TRICK OR TREAT?

On October 31st, HP stopped selling their HP e3000 line of servers. Some users may be left high and dry. Not to worry. IBM has a wide choice of midrange servers — including IBM eServer™ iSeries™ systems. iSeries servers allow you to run Linux, Windows, OS/400, and WebSphere applications. Add capacity, on demand. You can scale and consolidate. Grow up and out. Plus, IBM Business Partners are available to help you migrate, right now. We're committed to the iSeries technology. IBM is here for you — for the long haul. Learn how our midrange solutions can help you. Find us at **ibm.com**/eserver/midrange
